ABOUT ME

Innovative Full Stack Developer with a passion for blending clean code and creative design. Experienced in building scalable, user-focused applications and integrating AI technologies to improve functionality and user experience. Known for strong problem-solving skills, cross-functional teamwork, and a proven ability to deliver real-world results — including a 30% boost in chatbot retention and 95%+ freelance client satisfaction. Currently focused on AI-enhanced web development, UI/UX systems, and creative automation.
